

## Nightingale™ PPM3 Monitor from Zoe Medical

- Fast, accurate, continuous monitoring of key physiological parameters
- Masimo ISA CO2 Analyzer with Nomoline Adapter (low disposables cost)
- Connectivity with major oral surgery EMR systems
- Large, bright display with wide viewing angle (8.4" color "All-angle-view")
- Thin and light weight (4.5 lbs.) design, with integrated handle, make the PPM3 fit into tight spaces and an ideal portable solution
- Simple menus and layout for easy operation
- Future safe - software upgradeable via USB stick
- Long life Lithium Ion Battery
- Three year warranty

## Surveyor™ S12 Patient Monitor from Mortara

\*Surveyor can connect directly with EHR systems.

- MODERN monitoring platform and technology from a manufacturer with a 32 year record of excellence!
- The Surveyor™ S12 has a simple and intuitive touchscreen user interface paired with a 12" high-resolution display for exceptional visibility.
- A slim, slender and streamlined design, with integrated handle, make the Surveyor S12 an ideal portable solution.
- The durable Microstream® CO2 internal pump and sensor are designed for 30,000 monitoring hours which equates to roughly 10 years of use (at 8 hours/day, 5 days/week).

*With the cost of servicing outdated technology on the rise, rely on Microstream® CO2 technology to reduce your maintenance expenditures throughout the life of the product.*
